13.04.2020

Amid the global COVID-19 public health emergency that creates challenges for families and businesses in Georgia and worldwide, we have decided to offer our assistance, should it be helpful.

We offer a centralized location for guidance, analysis, and resources to help to respond to COVID-19:

COVID-19 Resource Center

We have designed COVID-19 Resource Center on our web-page www.blb.ge

Through our webpage you may enjoy access to the Georgian and English versions of the main regulatory acts in connection with the Government of Georgia's response to the COVID-19.

A series of Partner Notes

We also offer a series of Partner Notes providing guidance and analysis of legal implications of pandemic.

This week our Partner Rusudan Maisuradze releases a Note "Amid COVID-19 Outbreak: Does the Force Majeure defense apply to your contractual obligations per se".

TaskForce

We have mobilized our team to help you to respond to the challenges requiring legal input in an emergency manner.

Please note that our email account COVID19TaskForce@blb.ge works on emergency regime and queries received here are tackled first.
