American Medical Centers Tbilisi is pleased to invite mothers, fathers, nannies, caregivers and all interested to a **Children's Psychology Workshop**.

Children's behaviour is shaped by their environment. As a parent or caregiver, it is important to understand the reason behind our child's behaviour.

AMC's Child Psychology Workshop aims at making the upbringing of the child a harmonious, joyful, enriching, well-informed, and well-executed process.

- Are you worried your child is not following emotional development milestones? The workshop will explore skills by age group.
- What is best for your child: taking part in all possible activities (languages, reading, maths) or playing outside?
- What can your child gain through role-play, pretend, and various play.
- We will explore helping your child to become more confident, self aware and emotionally balanced.
- Help your child to communicate more effectively.

These and many other topics will be discussed on the workshop.

Workshop Date: February 21

Time: 5PM

Venue: Vake, 11 Dimitri Arakishvili street, AMC Tbilisi

Language: English

Please sign up by calling or emailing us at AMC Tbilisi: +995 32 250 00 20,
